

REVISOR'S NOTE: This subsection is new language added without substantive change to clarify the present, repeated references to "equipment and mechanisms" and to avoid undue repetition in this title of the latter term.

(D) FACILITY.

"FACILITY" MEANS A LICENSED DEALER OR A VEHICLE GARAGE, REPAIR SHOP, OR GASLINE SERVICE STATION.

REVISOR'S NOTE: This subsection is new language added to avoid undue repetition in this title of the listed entities, which are taken from the checklist presently appearing in Art. 66 1/2, §13-101(3); see revisor's note to subsection (f) of this section. Use of the term "facility" also avoids circular, nonsequential statements such as that used in present Art. 66 1/2, §13-102: "The Division shall ... approve ... approved facilities...."

(E) INSPECTION CERTIFICATE.

"INSPECTION CERTIFICATE" MEANS A WRITTEN CERTIFICATION BY AN INSPECTION STATION THAT:

(1) CERTIFIES THAT, AS OF ITS DATE, A SPECIFIED VEHICLE MEETS OR EXCEEDS THE STANDARDS FOR EQUIPMENT ESTABLISHED UNDER THIS TITLE; AND

(2) IS SIGNED AND DATED ON BEHALF OF THE INSPECTION STATION BY THE REGISTERED INDIVIDUAL WHO PERSONALLY INSPECTED THE VEHICLE.

REVISOR'S NOTE: This subsection presently appears as Art. 66 1/2, §13-101(6).

The term "inspection certificate" is substituted for "certificate" to avoid any possible confusion with references to other documents such as a repair order certification or a certificate of title.

In this section and throughout this title, present references to "mechanisms" are deleted as unnecessary in light of the definition of "equipment" in subsection (c) of this section.

In item (2) of this subsection, the term "registered individual" is substituted for "authorized person" to conform to nomenclature adopted by the Administration, which, in its regulations, refers to a "registered inspection mechanic". See, e.g., Regulation 11.02.11.03.

The only other changes are in style.
